

Research – Parish Records in the Newfoundland Grand Banks Web Site

By Joe Petrie

The Newfoundland Grand Banks Web Site Home Page has a Provincial Genealogical Source Material Section that has a number of links including a link to the Parish Records transcribed and digitized by members. The Parish Records are in the link: <http://www.ngb.chebucto.org/Parish/index.shtml> .

The Parish Records are grouped by District. Volunteers have transcribed and digitized parish registers for a large number of parishes of a number of denominations. Records are being added frequently. Please note that in absence of “official” vital records, parish records are acceptable records.

For this article, I selected the hyperlinked Bay de Verde District list of Parish Records as of August 4, 2013 that follows. The Date is hyperlinked. Please note that if the event that you are searching for is earlier than the hyperlinked date range, the record may be in the records for a nearby District, like Harbour Grace or Carbonear. Sometimes the event will not be recorded because the event did not occur in Newfoundland. For example, my Hogan and Tobin GGG grandparents were born and married in Ireland. Their children (my GG grandparents) were born in Ireland and married in Northern Bay. Their marriage and their children’s christening records are in the Northern Bay records.
