

# Finding Genealogy Collections

## What you might find in a survey of compiled records:

- Extend the pedigree
- Find missing children in family groups
- Who else is working on your family tree

## What are the best places to search for compiled genealogy collections?

### 1. Go to [FamilySearch.org](http://FamilySearch.org)

- Type in the name you are looking for, Click on Search.
- The results will show what records the person can be found in.
- If your person is found in Ancestral File or Pedigree Resource File, it means someone has researched and submitted a pedigree with this person in the file.

### 2. Go to the [Family History Library Catalog \(https://www.familysearch.org/#form=catalog\)](https://www.familysearch.org/#form=catalog)

- Click on Surname Search
- You will see the list of books and genealogy collections the library has.
- If a book you really want to look at has not been filmed or digitized, go to the excellent article entitled, "[Buying, Borrowing, or Searching a Book](http://familysearch.org/learn/wiki/en/Buying,_Borrowing,_or_Searching_a_Book)" ([http://familysearch.org/learn/wiki/en/Buying, Borrowing, or Searching a Book](http://familysearch.org/learn/wiki/en/Buying,_Borrowing,_or_Searching_a_Book))

### 3. Go to any of the Web sites listed below. They have collections of genealogies on their sites. Look for bulletin boards on these sites where you can post a query as well as search for your family name.
